RE001B

AP RIFLE SLING

NO HOOKS RGO

PRODUCT DESCRIPTION

The two-point adjustable rifle sling is designed for general use by rangers and is optimized for all aspects of the job requirement including long range patrol, vehicle patrols, raids and static guarding. The sling allows for rapid elongation during use or for rapid tightening to the body when close retention is required. The sling can be easily converted to a single-point configuration. Attachment points are reinforced and optimized for rapid manipulation and prevention of rattling. Padding ensures shoulder comfort for long-term use.

SPECIFICATIONS/FEATURES

- Use of a well-designed tactical sling improves field handling, freeing hands while enabling weapon retention in a useable position.
- Adjustable so that the weapon can be tightly secured to the body, or the sling can be loosened to allow for ease of movement.
- The 2-point sling can synch to support sling-assisted shooting for advanced applications.
- Sling can be put into a single point configuration if desired.
